

Quality, Reliability and Innovation

Designed for performance, a new auger that constantly mixes homogeneously, manufactured with the highest quality and assembled with the best components on the market, this gives you an innovative and reliable mixer, which will allow you to feed your animals with a precise diet.

“Premium” Series Characteristics

- Greater Weighing Accuracy with its 4-Sensor System
- Strong thanks to a robust chassis
- Its tandem axle gives it greater stability
- Flotation tires

Premium Series II (Double Auger)

		P-ZD15
Capacity	ft ³	530
Recommended Power	Minimum HP	80
PTO	RPM	540
Auger speed	RPM	18 / 32
Knives	Pcs.	10
A	in	245
C	in	108
B*	in	119.5
Lug nuts	Pcs.	8
Wheels	Size	400/60-15.5
Empty Weight*	lb	10,781
Max mixing Load*	lb	11,574

DYET is here to provide farmers with efficient, innovative and reliable feeding solutions by designing and manufacturing high-quality equipment.

We dare to design the future of livestock feeding with our clear core values:

Quality

Excellence

Reliability

Innovation

Animal Health
