

# PREMIUM SERIES ZD20

### Quality, Reliability and Innovation

Designed for performance, a new auger that constantly mixes homogeneously, manufactured with the highest quality and assembled with the best components on the market, this gives you an innovative and reliable mixer, which will allow you to feed your animals with a precise diet.

### “Premium” Series Characteristics

- Greater Weighing Accuracy by 4 Sensor System
- Strong by a robust chassis
- Greater stability by tandem axle
- Flotation tires

Premium Series II (Double Auger)		
		P-ZD20
Capacity	ft <sup>3</sup>	706
Recommended Power	Minimum HP	110
PTO	RPM	1000
Auger speed	RPM	18/32
Knives	Pcs.	14
A	in	270
C	in	120
B*	in	125
Lug nuts	Pcs.	8
Wheels	Size	500/50-17
Empty Weight*	lb	13,999
Max mixing Load*	lb	15,432

DYET is here to provide farmers with efficient, innovative and reliable feeding solutions by designing and manufacturing high-quality equipment.

We dare to design the future of livestock feeding with our clear core values:

- Quality
- Excellence
- Reliability
- Innovation
- Animal Health
