PREMIUM SERIES ZD23

Quality, Reliability and Innovation

Designed for performance, a new auger that constantly mixes homogeneously, manufactured with the highest quality and assembled with the best components on the market, this gives you an innovative and reliable mixer, which will allow you to feed your animals with a precise diet.

“Premium” Series Characteristics

- Greater Weighing Accuracy by 4 Sensor System
- Strong by a robust chassis
- Greater stability by tandem axle
- Flotation tires

Premium Series II (Doble Auger)		
		P-ZD23
Capacity	m ³ / ft ³	23/813
Recommended Power	Minimum HP	130
PTO	RPM	540
Auger speed	RPM	18/32
Knives	Pcs.	14
A	mt / in	7.11/280
C	mt / in	3.32/131
B	mt / in	3.2/125
Track Width	mt / in	2.6/102.5
Outer width of wheels	mt / in	3.1/122.5
Empty Weight*	kg	6,650
Max mixing Load*	kg	7,870

DYET is here to provide farmers with efficient, innovative and reliable feeding solutions by designing and manufacturing high-quality equipment.

We dare to design the future of livestock feeding with our clear core values:

Quality

Excellence

Reliability

Innovation

Animal Health
